Mimaki Bulk Ink System

Variable Dot Technology

Nozzle Recovery System

Nozzle Check Unit

Uninterrupted Ink Supply System

Our original inks provide application diversity and color matching accuracy.

The versatility of Mimaki SS21 ink set combined with the high-performance productivity of the CJV300 Plus Series is a cost-effective solution that helps you improve throughput, print quality and workflow efficiencies while decreasing labor expenses and material waste.

Mimaki SS21 ink set is a fast-drying, eco-solvent formulation that is highly compatible with hundreds of media types; more than other ink technologies. Mimaki SS21 inks are available in ten colors: Magenta, Cyan, Yellow, Black, Light Cyan, Light Magenta, Light Black, Orange, White and Silver Metallic.

You can consistently deliver high-quality monochromatic reproductions, without the red undertone, and increase your color printing capabilities, with a wider array of reds and oranges, using SS21 Light Black and Orange inks.

For dye-sublimation transfer, Mimaki Sb54 inks are perfect for producing vibrant, high-quality sublimation transfers for a wide range of polyester applications like flags, banners, sportswear, and swimwear. Mimaki Sb54 dye-sublimation inks are available in six colors: Magenta, Blue, Yellow, Black, Light Blue and Light Magenta.
